

Module & Component	Function	Include	Note
Afd	Auxiliary Function Driver (AFD) Protocol Manager module	0	
Asform	Shell support module (H/PC like shell used)		
ASP	Active Server Pages (ASP)		
	<i>Aspcolct</i> Collection of ASP objects		
	<i>Aspcore</i> Required component for all configurations		
	<i>Aspparse</i> header files and ASP Preprocessor directives		
ASYNCMAC	AsyncMAC miniport driver Supports (used for NDISWAN)	0	
Atadisk	Advanced Technology Attachment (ATA) disk support module	0	
AUTODIAL	Point-to-Point Tunneling Protocol support		
BULLTLP3	Supports the Bull TLP3 Serial smart card reader.		
Cardserv	PC Card services module		
Cegsm	CEGSM module (Provides audio-compression support.)		
Ceramdrv	RAM disk driver module (creates storage cards in RAM)		
Ceshell	Shell support module (H/PC like shell used)		
Cmd	Command Processor module (command-line shell)		
Commctrl	Common Controls Control Panel application module	0	
CommDlg	Common dialog box module (ChooseColor, CommDlgExtendedError, PrintDlg)	0	Modified module
Console	Console module (command-line shell)		
Control	Control Panel application module		
Coredll	Core OS dynamic-link library (DLL) module (required)	0	
	<i>Accel_c</i> Create accelerator table component	0	
	<i>Coregwstsub</i> Stub function for GWE module.		
	<i>Coreimm</i> Input Method Manager (IMM) component	0	
	<i>Coreimmstsub</i> Stub function for Input Method Manager (IMM)		
	<i>Coreloc</i> Global national language support (NLS) component (required)	0	
	<i>Coremain</i> Base functionality component (required)	0	
	<i>Coresioa</i> Standard I/O (stdio) component ? 'A' version of APIs	0	
	<i>Coresiow</i> Stdio component ? 'W' version of APIs	0	
	<i>Coresip</i> Input panel component	0	
	<i>Corestra</i> Sprintf-style string handling component	0	
	<i>Corestrw</i> sscanf-style string handling functions component	0	
	<i>Cryptapi</i> Cryptography component	0	
	<i>Fileinfo</i> ShGetFileInfo APIs component	0	
	<i>Fileopen</i> GetOpenFileName and GetSaveFileName APIs component	0	Modified component
	<i>Fmtmsg</i> Message formatting component	0	
	<i>Fmtres</i> Provides FormatMessage API resources for the fmtmsg component		
	<i>Fpemu</i> Floating point emulation component		
	<i>Lmem</i> Local heap and memory allocation component (required)	0	
	<i>Locusa</i> U.S.-specific component		
	<i>Mgdi_c</i> GDI component	0	
	<i>Rectapi</i> Graphics device interface (GDI) rectangle support component	0	
	<i>Rsa32</i> RSA encryption component	0	
	<i>Serde</i> Win32 communication component	0	
	<i>Shcore</i> Shell component	0	
	<i>Shellapis</i> Shell API support component (SHAddToRecentDocs, Shell_NotifyIcon)	0	This API function will be modified.
	<i>Shexec</i> Shell API support component (ShellExecuteEx)	0	
	<i>Shmisc</i> Miscellaneous shell API component (SHLoadDIBitmap, SHShowOutOfMemory)	0	
	<i>Shortcut</i> Shell API support component (SHCreateShortcut, SHGetShortcutTarget)	0	
	<i>Tapilib</i> Telephony API (TAPI) support component	0	
	<i>Thunks</i> Kernel to Win32 thunk routines component (required)	0	
	<i>Wavelib</i> Wave and ACM audio component	0	
	<i>Wmgr_c</i> Window manager component	0	
Cplmain	Main Control Panel application module		
	<i>Backlight</i> Backlight Control Panel application component		
	<i>Colorscheme</i> Color schemes Control Panel application component		
	<i>Comm</i> Common Control Panel application component		
	<i>Datetime</i> Date and time Control Panel application component		
	<i>Dialing</i> Dialing Control Panel application component		
	<i>Display</i> Display Control Panel application component		
	<i>Keyboard</i> Keyboard Control Panel application component		
	<i>Mouse</i> Mouse Control Panel application component		
	<i>Network</i> Network Control Panel application component		
	<i>Owner</i> Owner Control Panel application component		
	<i>Password</i> Password Control Panel application component		
	<i>Pointercmn</i> Mouse and stylus Control Panel application component		
	<i>Power</i> Power Control Panel application component		
	<i>Sip</i> Input panel Control Panel application component		
	<i>Sounds</i> Sound Control Panel application component		
	<i>Stylus</i> Stylus Control Panel application component		
	<i>System</i> System Control Panel application component		
CRYPT32	Point-to-Point Tunneling Protocol support		
Ctlpnl	Control Panel helper process module		
Cxport	Common transport utilities module	0	
DCOMSSD	DCOM Service Control Module (SCM)		
Device	Installable device manager module	0	
Dhcp	Dynamic host configuration module	0	
DLLHOST	aggregates all of the interfaces of the DLL and exposes them to any remote clients		
Dualio	PC Card client driver module for the Socket Communications Dual Serial I/O card		
Etcha	Sample module for drawing application		
Explorer	Handheld PC-style shell module		
Fatfs	File allocation table (FAT) file system module	0	Modified module
Filesys	File system module	0	
	<i>Fsdbase</i> Database component	0	
	<i>fsdmgr</i> File System Driver (FSD) manager (interactions with installable FSDs)	0	
	<i>Fsheap</i> Heap file system component	0	
	<i>Fsmain</i> Object store component	0	
	<i>Fspass</i> Password component	0	
	<i>Fsreg</i> Registry component	0	
	<i>Fsysram</i> RAM and ROM file system component	0	
	<i>Fsysrom</i> ROM file system component	0	
	<i>Pmstsub</i> File system support component		

Generic	Sample application module		
GSM610	Audio Compression Manager (ACM) drivers (ACM sample codec driver)		
Gwes	Graphics, Windowing, and Events Subsystem (GWES) module	0	
	Accel Accelerator component	0	
	Audio Audio component	0	
	Btnctl Button control component	0	
	Calibrui Touch Screen Calibration UI component	0	Modified component
	Caret Caret component	0	
	Cascade Cascading menu component	0	
	Cdctl Candidate list control component	0	
	Clipbd Clipboard component	0	
	Gmbctl Combo box control component	0	
	Column Multi-column menu component	0	
	Cursor Win32 cursor API component	0	
	Cursor2 Win32 cursor API component (2-bit color)		
	Cursor8 Win32 cursor API component (8-bit color)	0	
	Defwndproc Default window procedure component	0	
	Dlgmgr Dialog box manager component	0	
	Dlgmnem Dialog box mnemonics component	0	
	Drawmbar Menu bar component	0	
	Edctl Edit control component	0	
	Edimefe East Asia edit control component (required for all East Asia products)		
	Edimefek Korean edit component		
	Edimejpn Japanese-specific portion of East Asia edit control component		
	Edimekor Korean edit component		
	Foregnd Foreground window, active window, and focus component	0	
	Gcache Window manager cache component	0	
	Getpower Battery power component	0	
	Gsetwinlong Get/SetWindowLong component	0	
	Gwectrl GWES base component	0	
	Gweshare GWES shared routines component	0	
	Gwesmain GWES initialization component	0	
	Hotkey Win32 hot key component	0	
	Icon Win32 icon support component	0	
	ICONCMN Win32 icon support component	0	
	Iconcurs Supports Win32 cursor icons		
	Idle System-idle timer component	0	
	Imgctl Image control component	0	
	Immthunk Input Method Manager (IMM) thinking component	0	
	Journal Simple journal component	0	
	Kbdui Keyboard interface component	0	
	Lbctl List box component	0	
	Loadbmp Bitmap loading component	0	
	Loading Image loading component	0	
	Loadstr String loading component	0	
	Mcursor Win32 cursor support component		
	Mcursor8 8-bit Win32 cursor support component		
	Menu Win32 base menu control component	0	
	Menuscrl Scrolling menu support component	0	
	Mgalias GDI font alias support component	0	
	Mgbase GDI base component	0	
	Mgbitmap GDI bitmap component	0	
	Mgbt Bit block transfer component	0	
	Mgbt2 Bitmap transfer component	0	
	Mgdc Device context component	0	
	Mgdibsec Device-independent bitmap component	0	
	Mgdraw Drawing tool component	0	
	Mgdrwtxt Text drawing component	0	
	Mgdx DirectDraw bitmap component	0	
	Mgfe Provides Asian word-break support for GDI		
	Mgpal Palette support component	0	
	Mgpalnat Natural palette support component	0	
	Mgprint Printing support component		
	Mgrast Raster font engine component		
	Mgrast2 Raster font engine component		
	Mgrgn Drawing region support component	0	
	Mgtci Win32 TranslateCharsetInfo API component	0	
	Mgtt TrueType font component	0	
	Mgwinmgr GDI and user-shared interface component	0	
	Mnoover Win32 menu control support component		
	Mnotapui Win32 menu control support component		
	Moverlap Overlapped menu component	0	
	Msgbeep Win32 MessageBeep component	0	
	Msgbox Primary message box component	0	
	Msgbox2 2 bits per pixel (bpp) message box component		
	Msgbox28 2-bpp or 8-bpp message box component	0	Modified component
	Msgque Message queue component	0	
	Mtapui Win32 menu control support component	0	
	Nclient Non-client area window manager component	0	
	Nled Notification LED component	0	
	Notifmin Event notification component (for NO UI system)	0	
	Notifpub Notification subsystem support component	0	Modified component
	Notify Event notification component	0	
	Oom Out of Memory component	0	
	Oomui Out of Memory UI component	0	Modified component
	Sbcmn Scroll bar control component	0	
	Sbcctl Scroll bar control component	0	
	Startui Startup dialog box UI component	0	Modified component
	Startup Startup component	0	
	Stcctl Static control component	0	
	Syscolor Win32 system color support component	0	
	Tchui Touch-screen user-interface component	0	

	<i>Timer</i>	<i>Win32 timer component</i>	0
	<i>Uibase</i>	<i>UI base component</i>	0
	<i>Winmgr</i>	<i>Window manager component</i>	0
	<i>Wmbase</i>	<i>Window manager support component</i>	0
HELLO		sample Hello World application	
Htmview		Hypertext Markup Language (HTML) Help engine control module	
HTTPD		Web server implementation	
	<i>Httpasp</i>	<i>ASP pages</i>	
	<i>Httpauth</i>	<i>Required for authentication</i>	
	<i>Httpcore</i>	<i>Core Web server component</i>	
	<i>Httpextn</i>	<i>ISAPI extensions</i>	
	<i>Httpfilt</i>	<i>ISAPI filters</i>	
	<i>Httpisapi</i>	<i>server-side scripting with the httpextn, httpfilt, and httpasp components</i>	
	<i>Httpparse</i>	<i>Web server parsing component</i>	
HTTPDADM		administrative functionality for the Web server	
HTTPDADMIN		HTTP admin tool (Web server to be configured remotely through a Web browser)	
httpdsvc		HTTP Server	
Hwxjpn		Japanese handwriting module	
Hwxusa		English handwriting module	
Iesample		Sample IE browser application (using IE components)	
Iexplore		Microsoft Pocket Internet Explorer Internet browser module	
IMAP4		Microsoft Exchange Server client-server messaging and groupware module	
Imejpp		Japanese Input method editor module	
Imejppui		support for the Pocket IME	
IME_Files		IME support	
Imgdecmp		Pocket Internet Explorer image decompression module	0
Intll		Regional settings Control Panel application module (landscape)	
Intlp		Regional settings Control Panel application module (portrait)	
IPCONFIG		diagnostic ipconfig command	
IPHLPAPI		IP Helper API	
IPNAT		Point-to-Point Tunneling Protocol support	
Ircmm		Infrared communications module	
Irdastk		Stack module for infrared communications	
Jscript		Microsoft Jscript development software module	
Kbdmsg		Keyboard sample test application module	
Labledit		Pocket Inbox module	
LPCD		main engine for the local procedure-call driver (LPCD)	
LPCRT		run-time support for the local procedure-call driver (LPCRT)	
Mailutil		Pocket Inbox module	
Mlang		Internet Explorer support module (internationalization of Internet data)	
Mqoa		Microsoft Message Queue Server (MSMQ) support module	
MSASN1		Point-to-Point Tunneling Protocol support	
MSCEFILE		Implements an ActiveX control for Microsoft Internet Explorer (IE) that manages files.	
Msfilter		Sample Audio Compression Manager (ACM) filter module	
Msgstore		Pocket Inbox module	
Mshime97		Korean IME module	
Mshhtml		Internet Explorer support module (HTML parsing and rendering engine)	
Msim		United States input method module	
Mtime98		Japanese IME	
	<i>Mtime98c</i>	<i>Japanese IME98 component</i>	
	<i>Mtime98d</i>	<i>Japanese IME98 component</i>	
	<i>Mtime98k</i>	<i>Japanese IME98 component</i>	
	<i>Mtime98m</i>	<i>Japanese IME98 component</i>	
	<i>Mtime98t</i>	<i>Japanese IME98 component</i>	
	<i>Mtime98u</i>	<i>Japanese IME98 component</i>	
MSTSC		Microsoft Terminal Server Client	
MSITSS		Supports encrypted storage	
Msmqadm		MSMQ support module (administration and configuration)	
MSMQADMEXT		MSMQ admin Internet Server Application Programming Interface (ISAPI) plug-in	
Msmqd		main MSMQ engine (implemented in a device driver)	
Msmqrt		MSMQ support module (MSMQ run-time API)	
MULTIBOX		sample input method for Japanese handwriting input	
Ndis		Network Driver Interface Specification (NDIS) network module	0
Ne2000		NE2000 NDIS miniport driver module	0
NET		Microsoft Message Queuing (MSMQ) functionality support module	
Netbios		Netbios over TCP/IP module	
Netregd		MSMQ support module (network-registration, DHCP required)	
Netui		Network UI module (repllog required)	0
Nk		OS kernel module (required)	0
	<i>CEFNK</i>	<i>CEF</i>	
	<i>NOCEFNK</i>	<i>No CEF</i>	0
	<i>NKCOMP</i>	<i>file compression</i>	0
	<i>NKNOCOMP</i>	<i>No file compression</i>	0
Ntlmssp		Windows NT Lan Manager secure socket provider module	0
Office		Microsoft pocket applications module	
Ole32		OLE support module	0
	<i>Com</i>	<i>Component Object Model (COM) interface component</i>	0
	<i>DCOMOLE</i>	<i>Main DCOM support</i>	
	<i>Docfile</i>	<i>Microsoft Win32R docfile component</i>	0
	<i>Exp</i>	<i>OLE storage services component</i>	0
	<i>Msf</i>	<i>OLE storage support component</i>	0
	<i>Ole232</i>	<i>OLE services support component</i>	0
	<i>Olemain</i>	<i>OLE main component</i>	
	<i>Stg</i>	<i>OLE lightweight storage component</i>	
Oleaut32		OLE automation module	0
Parallel		Parallel port driver module	
Pcl		PCL printer driver module	
Peghelp		HTML-based help module	
Pegterm		Terminal Connections Application (serial or modem)	
pime_files		support for the Japanese Pocket IME	
Pimprint		Pocket applications module	
Pmail		Pocket Inbox module	

Ppp	PPP and RAS functions module	0	
PPTP	Point-to-Point Tunneling Protocol		
Pnerr	Printer port error information and dialog module		
Prnport	Printer transport layer module		
Proxim	Proxim wireless Ethernet module		
PSCR	Driver for SCM PCMCIA smart-card reader		
Pwd_res	Pocket Word module		
Pword	Pocket Word module		
Pwwiff	Pocket Word module		
Ramdisk	RAM disk driver module		
Rapisrv	RAPI server module	0	
Rasdemo	Remote Access Service (RAS) demo module		
RASDIAL	Supports RAS dialing functionality		
RASENTRY	Provides support for the RasEntry application		
Redir	Network redirector module	0	
Remnet	Remote network dialing application module		
Replog	Windows CE Services module	0	
Riched20	Pocket applications module		
Rnaapp	Remote network dialing application support module (replog required)	0	
ROUTE	automatically configures TCP/IP routing tables application		
RPCLTCCM	Remote Procedure Calling (RPC) transport DLL		
RPCLTSCM	RPC transport DLL		
RPCRT4	RPC main engine		
Rsabase	RSA encryption module (56 bit)	0	
RSANH	enhanced RSA encryption module (128 bit)	0	
SCARD	Supports Smartcard PC/SC resource manager functionality		
Schannel	Secure Sockets Layer (SSL) and program comprehension tool (PCT) module	0	
Secur32	Supports the Security Support Provider Interface (SSPI)	0	
Shdocvw	Internet Explorer support module (ActiveX control of navigation functions)		
Shell	Debugging shell module (CESH)	0	
SIPSELECT	sample program for on-the-fly selection of any available IM		
Smtip	Simple Mail Transfer Protocol (SMTP) Inbox module		
SNMP	Simple Network Management Protocol (SNMP)		
SNMP_HOSTMIB	SNMP Host-Management Information Base (MIB)		
SNMP_MIBII	MIBII for the SNMP implementation		
SNMP_SNMPTESTMIB	SNMPTESTMIB for the SNMP implementation		
Softkb	Input panel device driver module	0	
Spincube	Spinning cube sample application module		
Spintest	Sample application module		
Splusa	United States spelling checker module	0	
Sramdisk	Static RAM (SRAM) PC Card device module		
STCUSB	SCM Microsystems USB Smart Card reader		
Tapi	Telephony API (TAPI) support module	0	
Taskman	Task Manager module (Sample shell)		
Tcpstk	TCP/IP stack module	0	
Termctrl	Terminal property		
Testime	Sample IME application module		
Text	Sample text application module		
TNEFEX	Transport Neutral Encapsulation Format (TNFE) utilities; Pocket Inbox module		
TNEFU	Transport Neutral Encapsulation Format (TNFE) utilities; Pocket Inbox module		
Tnefutil	Pocket applications module		
Toolhelp	ToolHelp debugger support module	0	
Trueffs	True Flash File System for Windows CE (TrueFFS/CE) block device driver module		
Uicom	Pocket applications module		
Unimodem	Unimodem module	0	
Urlmon	IE support module (monitors URLs and reports changes to Web sites)		
Usbd	Universal serial bus (USB) module		
Usbhid	USB human interface device (HID) driver module		
Usbmouse	USB mouse driver module		
UTL98	Supports IME 98		
Uuid	Universally unique identifier (UUID) support module	0	
VISADM	Visual front end for MSMQADM.exe and MSMQ configuration		
Waveapi	Wave and ACM audio API module	0	
Wceoad	application installation support module		
Webview	Pocket Internet Explorer HTML module		
WinInet	Internet support module	0	
WINSCARD	Exposes PC/SC services for using smart cards and smart card readers		
Winsock	Winsock services module	0	
	<i>Sslsock SSL Winsock support component</i>	0	
WPLAYER	Wave file player		
Xircce2	Xircom Ethernet driver module		
DirectX			
ddhel	DirectDraw driver module	0	
directdraw	DirectDraw driver module	0	
	(Many module and component are exist in Windows CE 3.0 Add-on Pack)		DirectX is NOT included.
Runtime			
ATL	Active Template Library (atlce300.dll)	0	
MFC	Microsoft Foundation Classes (mfce300_ca.dll, olece300_ca.dll)	0	Modified MFC is included.
VBRT	Visual Basic Runtime (pvbform2.dll, pvbhost2.dll, pvbload.exe, vbscript.dll, etc)		VB runtime is NOT included.
Font			
arial.ttf	TrueType font file (Arial)		
bookdings.ttf	TrueType font file		
cour.ttf	TrueType font file (Courier New)	0	
frutiger.ttf	TrueType font file		
frutigerb.ttf	TrueType font file		
frutigeri.ttf	TrueType font file		

gl_ce.ttf	TrueType font file (Korean, Gulim)		
msgothic.ttc	TrueType font file (MS gothic & MS P gothic)		
mstring.ttf	TrueType font file (Chinese, MS Ming)		
sunfon.ttf	TrueType font file (Chinese, SC_Song)		
symbol.ttf	TrueType font file (Symbol)		
tahoma.ttf	TrueType font file (Tahoma)	0	
tahomabd.ttf	TrueType font file (Tahoma Bold)		
times.ttf	TrueType font file (Times New Roman)
